

# Looking after your new puppy

3  
months

- Socialise your puppy to different sounds, places and people.
- Young puppies sleep for 15-20 hours a day.

4  
months

- Puppies benefit from a regular routine.
- Puppies need to urinate at least every hour or two.

Full of  
energy

5  
months

- Puppies have 28 'baby teeth'.
- Just like human fingerprints, no two puppies' nose prints are alike.

6  
months

- Puppies like to have a variety of toys.
- Always have fresh water available for your puppy.

Cuteness  
overload

7  
months

- Puppies have short bursts of energy.
- Grooming is a good way to bond with your puppy.

8  
months

- Puppies make wonderful companions.
- Puppies love to explore and play.

We're here for you and your new puppy every step of the way.
